

Material Handling Equipment

Powerful attachments to fit your application.

Worksaver

The widest choice of quality material handling attachments.

Split-Top Grapple Rake

Designed for today's modern skid steer and tractor front loaders. Available in 62" or 77" width, the split top design provides dual upper grapples for picking up brush and other debris while leaving the dirt behind. Ideal for loading logs, orchard prunings, piling brush and moving hard to handle materials.

- Unique tine design with weld-on tine points.
- Tine design allows operator to go under logs/brush for easy clean pick up.
- Interfacing quick-attach brackets available for most tractor loader models including John Deere, AGCO, CNH, Bush Hog and others.
- Greaseable pivot points on upper clamps for long service life.
- Shield Plate in upper clamps provides protection for hydraulic cylinders.

Compact Grapple Rake

Designed for compact tractors up to 40 horsepower that are equipped with a front loader. This 60-inch wide grapple allows the acreage owner unsurpassed versatility in clearing brush, piling limbs or orchard maintenance. Ideal for loading limbs, orchard prunings, piling brush and other hard to handle materials.

- Unique upper grapple design provides clamping force to hold material securely.
- Design allows brush and other materials to be picked up while leaving the dirt.
- Size compatible with the lift capacity of most small loader tractors.
- Good forward visibility for easy control in close quarters for increased productivity.
- Simple efficient design with few moving parts for long life.
- Pivot points have lubrication capabilities.
- Tractor front loader model allow use of standard pin-on bracket or select interfacing quick attach brackets for John Deere, AGCO, CNH, Kubota and other brands.

Low Profile Tine Grapple

Designed for skid steers, the LPTG series tine grapple easily moves rocks, brush, wood, metal and other materials while leaving the dirt on the ground. The grapple is ideal for various applications including construction site demolition and clean-up, storm clean-up, and landscaping. Features include 5-½" tine spacing, 3,000 psi cylinders with cylinder guards to protect the cylinders and components. Hoses are equipped with "connect under pressure" flat-faced couplers.

Low Profile Scrap Bucket

Designed for skid steers, the LPSB series scrap bucket provides material handling on the construction site for moving demolition debris, rocks, brush, and dirt. Ideal for storm clean-up, landscaping, or moving hard to handle materials. Features 3,000 psi cylinders with cylinder guards to protect the cylinders and components. Hoses are equipped with "connect under pressure" flat-faced couplers. The scrap bucket's cutting edge is drilled to accept an optional replaceable and reversible beveled cutting edge which provides increased bucket strength while extending bucket life.

ETG Series Tine Grapple

Designed for use on skid steers (and tractor front loaders) utilizing the "Universal" skid steer attaching system. Also available to fit John Deere 300/400/500 series loaders. Ideal for raking, piling, and loading brush and other hard to handle materials while leaving dirt behind.

- Unique upper grapple design provides clamping force to hold material securely.
- Greaseable pivot points on upper grapple for long service life.
- Low profile design offers great forward visibility for superior control in close quarters and easy access to skid steer seat.
- Shield plate on upper grapple provides protection for hydraulic cylinder.
- Couplers are included as standard equipment.

Pallet Forks

Designed for skid steer or tractor front loaders, our standard pallet forks have rated capacities from 4,000 lbs. to 5,500 lbs. All models feature solid steel alloy forks for long life, with spring loaded latches for easy adjustment spacing.

- Skid steer pallet forks (4,000 lbs.) are offered with a one piece backstop or a step through design for easy cab access and excellent visibility.
- Skid steer models mount with the "Universal" quick-attach mounting system.
- Premium forks include spring loaded latches for easy adjustment spacing.
- Models available with integrated brackets for skid steers, John Deere 400/500/600/700 series loaders, and loaders with euro/global attaching method.
- Optional interfacing quick-attach brackets available for most other loader models.
- Provides versatility for your skid steer or tractor front loader.

^{*}Optional interfacing quick attach brackets available for most popular loaders.

Note: Rated lift capacity is based on a pair of forks with no more than ½ - load per fork and load no more than halfway out on each fork.

Compact Pallet Forks

Don't let their small size fool you. These pallet forks are designed for compact tractors up to 40 horsepower equipped with a front loader. They incorporate many of the same durability features found in our larger units. Excellent for moving bulky, bagged or palletized materials quickly and easily, saving time and effort.

- Pallet forks are rated at 2,000 lbs.
- Class I solid steel alloy forks for long life.
- Spring-loaded latches allow for easy adjustment spacing.
- Models available with integrated brackets for John Deere 200/300 series loaders, as well as loaders utilizing the universal skid steer system.
- Fits other loaders with our FLPF model and bolt-on interfacing quick attach brackets available for most major compact loader models.

Clamp-On Bucket Forks

These Clamp-On Bucket Forks are built to meet the demands of today's acreage owner. Sturdy construction provides outstanding performance over years of service. Easy on/off design offers the utmost in convenience when moving palletized materials.

- Mounts to most loader buckets without the use of tools easy on/off design.
- Rated from 1,000 to 4,000 lbs. Lift is limited by fork capacity or loader capacity, whichever is less.
- Useable fork length of 35 to 42 inches.
- Designed for handling palletized material only.
- "T" handle design saves time when clamping and unclamping forks.
- Each fork has a built-in stake pocket for a 2 x 4 to be installed as an upright backstop (recommended).
- Sturdy all steel welded construction.
- Completely independent allows fork adjustment to any pallet width.
- Forks extend 14.5 Inches under bucket, 8 in. inside bucket.

Manure Forks

- Designed for picking up manure, matted straw or other loose materials.
- Produces cleaner stalls with less physical effort.
- Excellent for handling silage, upper grapple helps secures load during transport improving productivity.
- All units feature forged cranked tines for extended service life.
- Units with upper grapple and skid steer mount are supplied with hoses and connect under pressure couplers for ease of installation.
- Models with upper grapple have greaseable pivot points for long life.
- Cylinder pivot points utilize replaceable harden bushing to reduce wear.
- Models with upper grapples can be used for picking up tree limbs increasing their versatility.
- Mount types: John Deere, "Universal" Skid Steer, and models to accept bolt-on brackets.

Weight (lbs/kg)	182 / 83
Product Item No.	81140

WARNING: Read and understand the operator's manual before operation. Be sure tractor/skid steer is properly counterbalanced. Damage to equipment or personal injury could occur.

Caution — A heavy load can cause your tractor to tip over. When moving heavy loads, keep the load as close to the ground as possible, go slowly around turns, and be sure the front or rear of tractor is properly counterbalanced with weights.

Caution — Operators must read & understand operator's manual, particularly the safety warnings and instructions. The operator is responsible for safety of themselves and others when operating equipment.

WORKSAVER, INC. has a corporate policy of continuous product improvement and development; therefore, specifications are subject to change without any advance notice.

WORKSAVER, INC. is not responsible for differences between specifications or illustrations contained in this publication and the actual equipment.

Designed. Engineered. Remarkable Value.
